

Québec Chaudière-Appalaches MATURE WORKERS (55+) INITIATIVE

Are you **55+** years of age?

In today's workforce ...what role do you play?

...what role would you *like* to play?

CEDEC wants to hear your story!

CEDEC's Mature Workers Initiative aims to identify and address challenges faced by English-speaking individuals over the age of 55 with respect to today's workplace . Our goal is to listen and learn from the experiences of mature workers and to develop a strategy to assist service providers in helping these community members find the resources required to integrate into the labour force.

Telling your story is the first step in a process of positive movement for change.

Remember, your voice is valued.

In communities across Quebec, CEDEC shares its experience in planning and developing partnerships with the aim to strengthen local economies and employability of the English-speaking and broader community.

CEDEC is funded through the Government of Canada's Enabling Fund.
